

## FILMTEC Maple Sap Nanofiltration Elements

Filmtec makes two superb 4" x 40" Maple Concentrate Membranes.

The NF90-4040 uses the same design and chemistry as the Mark I and the NF90-400 eight inch membranes.

The NF270-4040 allows a greater flow, but can pass small amounts of sugar as concentrate increases.

	<u>Dimensions</u>	<u>Test</u>	<u>Membrane</u>	<u>Permeate Water</u>	<u>Price</u>
NF90-4040	4" x 40"	Pressure 225 psi	Area 82 sq ft	Flow Rate 1500 gpd	\$ 312.00
NF270-4040	4" x 40"	225 psi	82 sq ft	2500 gpd	\$ 312.00
